

Tadiyass! from
Sasiga, Ethiopia

Sasiga, Ethiopia

In Ethiopia, over 11.3 million people have been at risk of starvation since 2000. Severe droughts and food shortages forced thousands to be relocated to more fertile areas of the country. This put two very different religious groups in the Sasiga community. FH Canada initially came to work with the two groups as a peacemaker, and soon after partnered with them to help the community reach sustainability.
